Local government budgets are back in the black, but that means the services they provide will not be the same. More than two hundred million dollars worth of jobs and services have been cut. The biggest cuts came at the City of Las Vegas. The long list includes rolling "brown" outs for the Fire Department and cutting almost twenty members of the fire department. In addition nine community schools will also be closed. After school programs will also be affected and the services they provide will be greatly missed.

PROGRAM TITLE: News 3 @ 11PM

TYPE: News

DATE: 6.18.10

DESCRIPTION: A vehicle crash at a major intersection was caused when the road literally caved in. A water main break was to blame for the weakened road and subsequent hole. The hole in the road began to open up and driver's tried to react quickly. Many swerved to avoid this hazard, but some could not react fast enough. An elderly woman tried to steer clear of the situation but her car ended up sinking into the hole. The airbags in her car deployed which also left her trapped in the vehicle. Rescuers arrived to find the hole still expanding and the car still sinking.
